Below is some feedback we received from attendee's on your session "Next Generation Config Mgmt: Workshop".

Rating: 49 stars of 50 possible from 10 ratings.

Open-ended feedback

Just love it. Great guy, full of energy and joy presented a game changer in configuration management land. Maybe it's not production ready, maybe it still needs a lot of work but this stuff is really hot and is making me eager to try it on production.

Also, if you haven't already but would still like to let us know about your experience as a DevConf.cz speaker ...
